

It's finally here....The Evidence For Learning Family app!

We are pleased to announce that the Evidence For Learning Parent Portal team have finally developed an App which we are now ready to launch across school. Parent Governor Paul Mills and I are heading up this exciting project. Upper School parents have kindly tried it out this week and the feedback has been very positive. We would now like to invite everyone in school to join in.

First download Evidence For Learning FAMILY and not Evidence For Learning. They look very similar, look out for the red band at the bottom of the logo.

Thisnot that !

The screenshot shows the login interface of the Evidence For Learning Family app. At the top is the app's logo. Below it is the text "Sign in". There are three input fields: "Domain" with the value "Icknield", "User name" with the value "Existing email", and "Password" with the value "Your password". A blue "Sign in" button is below the password field. A link "Forgot Password?" is at the bottom left. A hint box at the bottom states: "HINT: Please contact your school if you have forgotten your Domain or Username."

When you open the App you will need to type in the following information:

Domain **Icknield**

User name **Your email address**

Password **Your portal password**

If you have forgotten your password please let me know and I will send you a new one. If have never accessed the Parent Portal, than don't worry, the app version is easy to download onto your phone. Again, just ask me to generate you a password.

Once you have logged on, you are able to change your password in the Profile Settings. You can also add a 2 Factor Authentication if you are more security conscience.

I really hope you enjoy the new Family app, please let me know what you think.
