

Evidence For Learning Newsletter

I am pleased to hear all the of positive comments you have made about the new Evidence For Learning Family app.

Very easy to use.
Thumbs up from us.

It looks great!

Clear and easy to navigate.

Thanks, loads better than the website.

Notifications have resumed, so you should receive an email when new evidence has been uploaded.

I can now provide additional Family app logins for other members of the family. Both parents can have their own logins or you might like a grandparent to also access the app. If you would like additional family logins then please email me: c.southerton@icknield.hants.sch.uk. I will need to know their full name, their email address and their relationship to your child. Please note to send this information via my email and not DOJO.

I have noticed that some of you are still using the portal. This is absolutely fine if that is your preferred method. The portal is still the way to access Home Learning, until this has been developed on the app. However if you were unaware of the new Family app or have struggled to access it, then either email me : c.southerton@icknield.hants.sch.uk or go to the parents' page on the school website to find out more.

Thank you for all the photos that you send via the app, I know staff love to see continued learning opportunities at home.

Cath Southerton
